SECURITY INFORMATION

15 July 1952

MEMORANDUM FOR: DIRECTOR, PSYCHOLOGICAL STRATEGY BOARD

ATTENTION : Mr. Malloy Brown, Assistant Director for Evaluation

SUBJECT : CIA Report on National Psychological Programs

1. In view of the fact that my office is the official staff liaison channel between the Central Intelligence Agency and the Psychological Strategy Board, I believe it appropriate to furnish you informally an advance draft of the CIA contribution toward the Psychological Strategy Board report being prepared for the National Security Council. It is quite apparent that, in view of the short time between the compilation of the report and its submission to the National Security Council by 1 August, this informal procedure is a requisite step to expedite action.

2. I must stress, however, that this report has not yet been seen, far less approved, by the Assistant Director for Policy Coordination, the Deputy Director (Plans), or the Director of Central Intelligence, and, undoubtedly, some time will be consumed in this review.

3. My office will attempt to keep you informed of any principal changes being made, in order that your consolidated report can reflect these views.
